

Funding Sources (Medicare and Medicaid Certified)

Maxim Home Health Resources works with Medicare and Medicare Advantage Plans, in addition to numerous HMOs and PPOs.

Maxim is a national company and is constantly expanding our Managed Care Contracts. Our Alzheimer's disease and Mental Health Programs are covered by many insurance companies. Please contact us today to learn if we can work with yours.

About Alzheimer's Disease

Alzheimer's disease, the most common form of dementia, is a progressive and fatal brain disease that destroys brain cells, causing problems with memory and other intellectual abilities serious enough to interfere with daily life. This disease currently has no cure; however, by combining treatments for symptoms with the proper management of the right services and support, life can be less stressful for both the patient and caregiver.

With Maxim Home Health Resources, you and your loved ones can feel comfortable that we will guide and prepare you for the progression of Alzheimer's disease, providing dementia care that is safe, respectful, and meaningful for each individual.

MAXIM is an Equal Opportunity Employer, dedicated to a policy of nondiscrimination in matters involving our patients and our employees. MAXIM does not condition, exclude, or deny admission or treatment of any patient, nor assign personnel or facilities, based on race, color, age, religion, national origin, citizenship status, creed, gender, marital status, sexual orientation, political affiliations, medical condition, disability or handicap, or any other basis prohibited by federal, state, or local law. Additionally, MAXIM requires that all persons and organizations that refer patients for admission or recommend MAXIM do so without regard to any of the foregoing.

MEDICARE MENTAL HEALTH SERVICES:
Alzheimer's Disease Patient and Caregiver Education Program

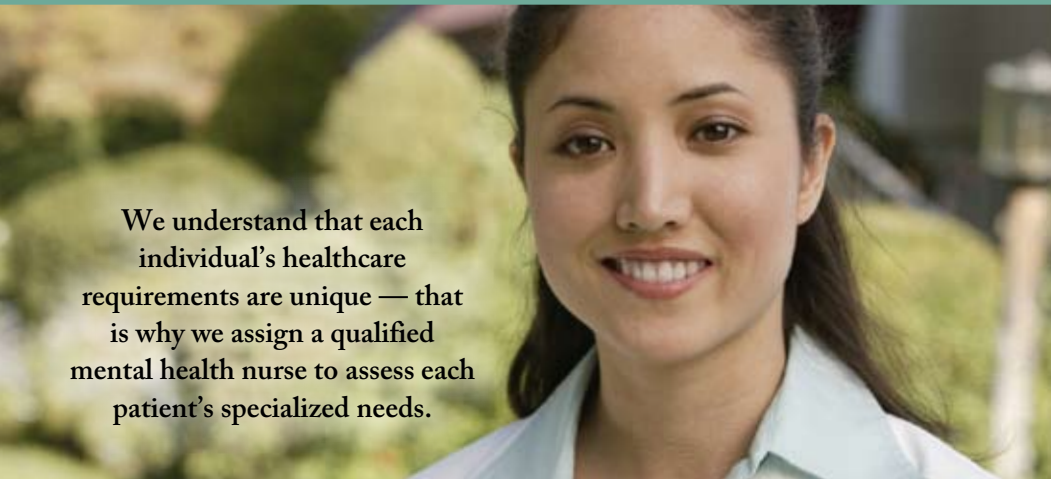

CARE IN THE COMFORT OF YOUR OWN HOME

*Creating Successful Outcomes Through
Compassionate and Competent Care*

About Our Program

Maxim Home Health Resources (MHHR) is nationally recognized as a leading provider of home healthcare services and is highly capable of managing all of your in-home healthcare needs. Our central focus is producing the finest and most appropriate outcomes for both patient and family. If you or a loved one has been diagnosed with Alzheimer's disease, MHHR is able to provide the nursing care, education, and support services needed in the comfort of your home. Our skilled team of medical professionals is available to aid patients and families with transitional needs in a comprehensive manner.

We understand that each individual's healthcare requirements are unique — that is why we assign a qualified mental health nurse to assess each patient's specialized needs.

What You Can Expect from MHHR:

Maxim's Alzheimer's Program provides caregivers and patients with the information needed to successfully manage all stages of Alzheimer's disease. We understand that each individual's healthcare requirements are unique — that is why we assign a qualified mental health nurse to assess each patient's specialized needs. To begin care, we will send a nurse to the home for an initial consultation and collaboration with you and your Physician to develop a detailed and effective individualized plan of care. Our mental health nurse will also supply vital information and techniques to help those living with Alzheimer's, in addition to serving as a liaison between the patient/caregiver and community resources.

MHHR offers an uncompromising level of service that doctors and case managers have come to trust. In addition to our in-home mental health services, we also provide in-home care ranging from skilled medical nursing, physical, occupational, and speech therapies, to home health aide services. All home health services are available under the supervision of the patient's Physician.
